

Comprendre le sens de la multiplication (1)

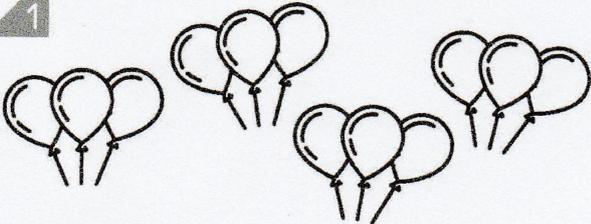

✓ Pour construire 4 fusées de 5 cubes chacune, il faut commander 20 cubes.

$$5 + 5 + 5 + 5 = 20$$

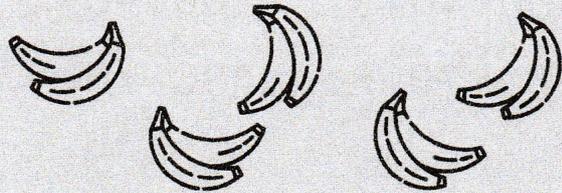

Je fais une multiplication: $5 \times 4 = 20$
 « 4 fois 5 égale 20. » « 5 multiplié par 4 égale 20. »

1 Complète les additions et les multiplications.

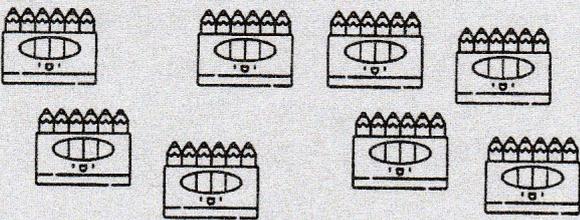

$$\dots + \dots + \dots + \dots = \dots$$

$$\dots \times \dots = \dots$$

$$\dots + \dots + \dots + \dots = \dots$$

$$\dots \times \dots = \dots$$

$$\dots + \dots + \dots + \dots + \dots + \dots = \dots$$

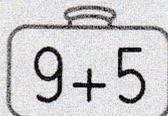

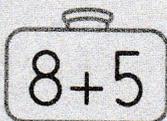

$$\dots \times \dots = \dots$$

$$\dots + \dots + \dots = \dots$$

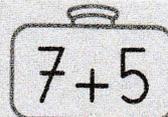

$$\dots \times \dots = \dots$$

Relie.
